Re: Village of Homer Glen - Culver Park Pollinator Migration Habitat

To Whom It May Concern:

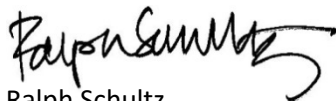

On behalf of the Forest Preserve District of Will County, I would like to provide this letter of support for the Village of Homer Glen's application to the ComEd Green Region program for their Culver Park Pollinator Migration Habitat project. We have reviewed the proposal and find that it satisfies the ComEd Green Region program guidelines.

Funding this project will create a pollinator conservation area at Culver Park which will serve as an educational destination for the school district to bring the students and learn about natural areas, as well as, benefit the community as public open space.

The Forest Preserve District of Will County endorses this proposal and encourages your support of this request.

Thank you for your consideration. Please do not hesitate to contact me if you have any questions.

Sincerely,

Ralph Schultz
Executive Director
Forest Preserve District of Will County
