

We are a garden club focused on Grosse Pointe Park's Matthew C. Patterson Park on Essex Blvd. The club is an independent organization affiliated with the Michigan Garden Clubs and works with the Grosse Pointe Park Beautification Commission. The resident-driven club was formed to partner with the City for the improvements of Patterson Park.

The City has allocated multiple Patterson Park garden beds to the Garden Club for management and development. **We are seeking new members to join us for the wonderful opportunity to support our community and Patterson Park!**
