

Village of Flossmoor

Flossmoor, IL

Mayor Michelle Nelson

Pledge Summary

The Village of Flossmoor is a beautiful suburb of Chicago with just under 10,000 residents. We feature tree-lined streets, a variety of historic homes, excellent schools, a diverse and inclusive population, an extensive sculpture garden and sprawling parks, and a thriving small business community. Flossmoor is dedicated to green initiatives and has a Green Commission to help advance that work. As a Village, we have been working on replacing our tree canopy by planting hundreds of trees annually, we host a large annual recycling event and promote daily recycling activities, we discourage idling, we maintain a free seed library, we use native plantings in newly landscaped public areas, and in 2022 we are installing a butterfly garden in one of our local parks! Mayor Nelson is committed to saving the monarch butterfly and other pollinators with her signing of the Mayors' Monarch Pledge and looks forward to working with the Green Commission and residents to build more pollinator habitats throughout the Village.

Action Items Committed for 2022

Communications and Convening

- Issue a proclamation to raise awareness about the decline of the monarch butterfly and the species' need for habitat. This proclamation must incorporate a focus on monarch conservation.
- Engage with city parks and recreation, public works, sustainability, and other relevant staff to identify opportunities to revise and maintain mowing programs and milkweed / native nectar plant planting programs.
- Engage with gardening leaders and partners (e.g., Master Naturalists, Master Gardeners, Nature Centers, Native Plant Society Chapters , other long-standing and influential community leaders) to support monarch butterfly conservation.
- Engage with Homeowners Associations (HOAs), Community Associations or neighborhood organizations to identify opportunities to plant monarch gardens and revise maintenance and mowing programs.
- Engage with developers, planners, landscape architects, and other community leaders and organizers engaged in planning processes to identify opportunities to create monarch habitat.
- Create a community art project to enhance and promote monarch and pollinator conservation as well as cultural awareness and recognition.

Program and Demonstration Gardens

- Host or support a native seed or plant sale, giveaway or swap.
- Facilitate or support a milkweed seed collection and propagation effort.

- Plant or maintain a monarch and pollinator-friendly demonstration garden at City Hall or another prominent or culturally significant community location.
- Plant milkweed and pollinator-friendly native nectar plants along roadsides, medians, or public rights-of-way.
- Launch or maintain an outdoor education program(s) (e.g., at schools, after-school programs, community centers and groups) that builds awareness and creates habitat by engaging students, educators, and the community in planting native milkweed and pollinator-friendly native nectar plants (i.e., National Wildlife Federation’s Schoolyard Habitats program and Monarch Mission curriculum).
- Initiate or support community science (or citizen science) efforts that help monitor monarch migration and health.
- Add or maintain native milkweed and nectar-producing plants in gardens in the community.
- Launch, expand, or continue an invasive species removal program that will support the re-establishment of native habitat for monarch butterflies and other pollinators.
- Display educational signage at monarch gardens and pollinator habitat.

Action Items

In total, how many individuals have been reached through the Mayors’ Monarch Pledge in your community this year (Jan-Dec)? Please limit your answer to only the number of individuals reached in the answer field below (e.g., 50).

3000

Of the total number of individuals engaged, how many youth (0-18) were reached through the Mayors' Monarch Pledge in your community this year (Jan. - Dec.)? If none, please write 0.” (Only allow numerical values.)

500 youth 2500 adults

In total, how many acres of monarch habitat have been created in your city in the last 12 months? Please limit your answer to only the number of acres in the answer field below (e.g., 3).

.25

Where is your habitat being created? This may include residences (yards, containers, balconies, etc.), schools, places of worship, rights-of-way, roadsides, community gardens, culturally-significant locations, shared public spaces and common areas or parks.

Shared Community Park

How are you leveraging the Mayors' Monarch Pledge program to engage marginalized communities, such as low-income communities or communities of color?

The Green commission gave away 300 milkweed plants at a community event for free.

What was your community's motivation for taking and continuing to work on the Mayors' Monarch Pledge?

A commitment to environmentalism

What resources have been most helpful to you thus far and what new resources would you like to see to help meet your goals? What resources would be useful to help expand equitable engagement in community processes and access to high-quality, usable nature?

Our Green Commissioners expertise and our staff arborist. We would like to create a future campaign for residents to submit their butterfly habitats.

What else should we know about your monarch butterfly conservation efforts over the last year?

We also gave away 1000 milkweed seeds at the end of our award winning half marathon race.

Selected Action Items

Engage with gardening leaders and partners (e.g., Master Naturalists, Master Gardeners, Nature Centers, Native Plant Society Chapters , other long-standing and influential community leaders) to support monarch butterfly conservation.

How many community organizations and groups participated? Please list them below.

MWRD was at our fest handing out literature related to butterfly conversation.

Please describe the extent of engagement with these groups and their monarch butterfly conservation efforts.

They shared a booth with our green commission at our annual fest that engages 3000 people.

Host or support a native seed or plant sale, giveaway or swap.

How many plants were sold and/or given away at your event?

300

How many people attended your event?

500

What community organizations, groups, or leaders (if any) did you partner with or engage to host the event?

Our Green commission partnered with the South Land Chamber of Commerce.

Facilitate or support a milkweed seed collection and propagation effort.

How many people attended your event?

1000

What species were collected or propagated?

Milkweed

What community organizations, groups, or leaders (if any) did you partner with or engage to host the event?

Flossmoor Futures

Please describe the milkweed seed collection and propagation effort that you hosted.

We gave away 1000 packets of milkweed seed to the participating runners.

Plant or maintain a monarch and pollinator-friendly demonstration garden at City Hall or another prominent or culturally significant community location.

Where is the demonstration garden located and how does this location relate to the cultural significance of the monarch (if relevant)? (Please provide an address or coordinates, if possible)

Leavitt Park which contains most of the Village public art it is located at 1011 Leavitt Avenue Flossmoor, IL

What community organizations, groups, or leaders (if any) did you partner with or engage to complete this effort?

Green Commission

What is the size of the demonstration garden (in acres)? Please limit your answer to only the number of acres in the answer field below (e.g., 0.5 acres). For reference, 1 acre = 43,560 square feet and is about the size of a football field without the end zones.

.25

Engage with city parks and recreation, public works, sustainability, and other relevant staff to identify opportunities to revise and maintain mowing programs and milkweed / native nectar plant planting programs.

How many community organizations and groups participated? Please list them below.

Public Library

Please describe the extent of engagement with these groups and revisions/maintenance implemented for mowing or planting programs.

The Public Library has a seed library, that included milkweed.

Engage with Homeowners Associations (HOAs), Community Associations or neighborhood organizations to identify opportunities to plant monarch gardens and revise maintenance and mowing programs.

How many community organizations and groups participated? Please list them below.

None

Please describe the extent of engagement with these groups and revisions implemented for mowing and maintenance programs.

None

Engage with developers, planners, landscape architects, and other community leaders and organizers engaged in planning processes to identify opportunities to create monarch habitat.

Please describe the extent of engagement with these groups and associated opportunities to create monarch habitat.

None

Create a community art project to enhance and promote monarch and pollinator conservation as well as cultural awareness and recognition.

What community organizations, groups, or leaders (if any) did you partner with or engage to host the event?

None

How many individuals were engaged in this effort? Please limit your answer to only the number of individuals reached in the answer field (e.g., 50).

0

Please describe the community art project that was implemented in your community and how it contributed to cultural awareness and recognition (e.g., number of art installations, type of art).

None

Plant milkweed and pollinator-friendly native nectar plants along roadsides, medians, or public rights-of-way.

Where are the medians, roadsides and public rights-of-way? (Please provide an address or coordinates, if possible, or describe the location)

No

How many milkweed and pollinator-friendly native nectar plants were planted?

0

What is the total acreage of median and public right-of-way that has been planted with milkweed and pollinator-friendly native nectar plants?

0

Please describe the maintenance schedule for these planted areas.

not established

Launch or maintain an outdoor education program(s) (e.g., at schools, after-school programs, community centers and groups) that builds awareness and creates habitat by engaging students, educators, and the community in planting native milkweed and pollinator-friendly native nectar plants (i.e., National Wildlife Federation's Schoolyard Habitats program and Monarch Mission curriculum).

What program was launched or maintained to complete this effort? If you are involved with another National Wildlife Federation program, please mention that below. (Please include a link to the program, if possible)

no

How many schools, community groups, leaders, or centers were engaged in this effort? How many of these collaborations and partnerships are "new"?

0

Please list the names of the schools you are working with.

N/A

What resources, if any, are you providing to educators?

0

How many students and educators would you estimate are being reached? Please limit your answer to only number of adults and youths engaged in the answer field (e.g., 200 students and 20 educators).

0

What community organizations, groups, or leaders (if any) did you partner with or engage to complete this effort?

none

How many acres of monarch and pollinator habitat have been planted through this effort? Please limit your answer to only the number of acres in the answer field below (e.g., 0.5 acres). For reference, 1 acre = 43,560 square feet and is about the size of a football field without the end zones.

0

What is the maintenance schedule to ensure planted habitat is maintained?

N/A

Initiate or support community science (or citizen science) efforts that help monitor monarch migration and health.

How many estimated individuals participated in your community science effort? Please limit your answer to only the number of individuals reached in the answer field (e.g., 150).

0

What community organizations, groups, or leaders (if any) did you partner with or engage to complete this effort?

0

Please describe the community science program that you supported or initiated. Provide a link to any relevant programs, if possible.

NA

Add or maintain native milkweed and nectar-producing plants in gardens in the community.

What community organizations, groups, or leaders (if any) did you partner with or engage to complete this effort?

Green Commission

How many plants were planted?

200

Please describe your effort in completing this action.

Milkweed seeds were handed out at various events over 300 plants were distributed at the Illinois Philharmonic Orchestra event.

Launch, expand, or continue an invasive species removal program that will support the re-establishment of native habitat for monarch butterflies and other pollinators.

What is the total acreage of land treated to remove invasive plants?

0

Please describe the extent of revisions or maintenance to invasive species removal programs, as well as the practices or techniques used to remove the invasive plants.

N/a

Display educational signage at monarch gardens and pollinator habitat.

How many garden signs are being displayed and where are they located?

Please describe the educational information on the sign(s), and provide any links to externally purchased sign(s).

We have two signs designating pollinator friendly areas.

Issue a proclamation to raise awareness about the decline of the monarch butterfly and the species' need for habitat. This proclamation must incorporate a focus on monarch conservation.

Date of Proclamation:

April 18, 2022

Title of Proclamation (i.e. – Monarch Day or Pollinator Week):

A Resolution Endorsing the Mayor's Monarch Pledge

Upload a copy of your proclamation.
