Village of Woodbury

Orange County, NY, NY

Mayor Andrew Giacomazza

Pledge Summary

The Village of Woodbury is considered the Gateway to Orange County in the beautiful state of New York. I have been Mayor for the Village of Woodbury since January 1, 2022. One of my first actions was to re-establish our Climate Smart Taskforce. We are committing to increasing education about the plight of monarch butterflies and other pollinators. We have planted several NYS native gardens on village property. We also just purchased open space that will support milkweed and other pollinator friendly plants. We will continue to work to hit our goals.
