City of Mission, KS

Mission, KS

Mayor Sollie Flora

Pledge Summary

The City of Mission is a first ring suburb in the Kansas City metro located in northeast Johnson County. Mission has a longstanding commitment to our parks and greenspaces and promotes sustainability wherever possible. Mission was excited to take the pledge for the first time in 2025 and is looking forward to continuing to expand native plantings in our public spaces, including the recent addition of 15 milkweed plants at Water Works Park last fall. Mayor Flora and the City are excited to continue these efforts and more by signing the Mayors' Monarch Pledge and doing what we can to help save the monarch butterfly.
