City of Pismo Beach

Pismo Beach, CA

Mayor Ed Waage

Pledge Summary

Pismo Beach is a popular destination for visitors who come for the wide sandy beaches, beautiful downtown and great amenities for visitors. Each fall, the Monarch Butterflies migrate thousands of miles to California's Central Coast, and Pismo Beach has long been one of their favorite wintering destinations. The Pismo Beach Monarch Butterfly Grove is one of only a few sites in the state that have historically hosted tens of thousands of butterflies, clustering in the limbs of tall Eucalyptus trees beside the coastal estuary. There is ample milkweed for the butterflies at the grove. A local non-profit, the Friends of Price House, has planted milkweed in a city park.
