City of Lake Geneva

Lake Geneva, WI

Mayor Todd Krause

Pledge Summary

Lake Geneva, WI is a small resort community on beautiful Geneva Lake in southeastern Wisconsin. Lake Geneva welcomes thousands of tourists each year for its rich history, lake recreation and small downtown charm. It is also home to residents passionate about the environment, protecting its lake, and nurturing biking, birding and hiking sports. In recent years the Rotary Club of Lake Geneva created a Monarch Habitat Garden between the Lake Geneva Public Library and City Owned Lake Path in which the City maintains the Garden and holds educational programs focused on monarchs each spring. The Youth Librarian uses the Garden in her children's programs. In addition, the Friends of Hillmoor and the City of Lake Geneva are developing a 230+ acre property to include nature trails, native plantings, and pollinator gardens. This area will continue to be developed and maintained by the City with the help of any volunteer organizations.
