Town of Poughkeepsie

Poughkeepsie, NY

Town Supervisor Rebecca Edwards

Pledge Summary

The Town of Poughkeepsie Climate Smart Task Force and Conservation Advisory Commission have for five years fostered a "Pollinator Pathways" program to encourage native pollinator plantings for monarchs and other vital species. We are now working to expand the network of Pollinator Pathways gardens, through a public relations campaign and through expanded pollinator garden spaces in Town parks. We have adopted "No- and Low-Mow May" and will make a special effort to promote milkweeds and other species that help monarchs survive.
